

Here is an audio-first PromptCasting script designed to announce the dedication. It is structured to be evocative, paced for spoken delivery, and rich with sensory cues to ground the listener in the historic setting before transitioning to the digital vision.

PromptCasting Audio Script: The Dacre Wing Dedication

Title: A Homecoming for the Future: Dedicating the Dacre Wing

Voice Tone: Warm, resonant, visionary, and grounded.

Pacing: Deliberate and reflective, with pauses to allow the weight of the words to settle.

[Intro: Setting the Scene]

*(Audio Cue: The soft, resonant chime of an antique brass bell, fading slowly into the gentle ambient sound of a high vantage point—a light*

*breeze, distant morning birds.)*

**Narrator:**

**Welcome. Take a moment and picture the view from the top of the world—or at least, from the top of Stony Point, New York.**

**We are broadcasting to you today, June 22nd, 2026, from the historic Bell Cupola of Stony Point High School. It's a place of beginnings. A place of formative years. And today, it is the threshold of a new digital frontier.**

*(Brief pause)*

**[The Dedication]**

**Narrator:**

**Today, we proudly dedicate the Anne & George Dacre Affinity Intelligence Wing of the Ahimsa Pointe PeacePreneuring Incubator. Over a century ago, Andrew Carnegie transformed communities by building physical libraries—sanctuaries of knowledge, accessible to all, that empowered generations to build better futures. Today, we are opening the doors to a 21st-century equivalent.**

**The Dacre Wing is a virtual resource center, a digital sanctuary built not of bricks, but of authenticated, ethical, and human-led intelligence. It is a space designed to foster peace-building, entrepreneurial spirit, and collaborative innovation.**

**[The Homecoming & The Underwriters]**

*(Audio Cue: A subtle, uplifting shift in the background*

*music—something acoustic and forward-moving, like a steady cello or*

*acoustic guitar.)*

**Narrator:**

**For PM Thomas, co-founder of Reputation Interpretation Services, broadcasting from this specific cupola is more than a symbolic gesture. It is a homecoming. Stony Point is where those formative years were spent, where the seeds of community and integrity were first planted.**

**It is fitting, then, that this new wing is underwritten by the Authenticated Ethical Integrity Agency, through the auspices of Reputation Interpretation Services, LLC. They ensure that the knowledge housed within this virtual library is rooted in provenance and truth.**

**We aren't just giving you access to data. We are giving you access to wisdom you can trust.**

**[Outro: The Call to Action]**

**Narrator:**

**As the bell of Stony Point High School rings out today, it doesn't just mark the passing of time. It rings in a new era of affinity intelligence. To our global community of PeacePreneurs: The doors are open. The shelves are stocked. Let's build the future, together.**

***(Audio Cue: The historic bell rings out once more, clear and bright. The sound naturally decays into silence.)***

**Production Notes for the PromptCast:**

- **Audio Spacing:** Allow at least 2–3 seconds of silence after the

bell tolls to let the resonance fade naturally before the narrator speaks.

- **Emphasis:** When speaking "Anne & George Dacre Affinity Intelligence Wing," slow the cadence slightly to ensure the names and the concept carry the appropriate weight and respect.
- **Music Selection:** Keep any backing tracks acoustic and grounded to reflect the "historic high school" setting, avoiding overly synthetic or sci-fi sounds to maintain the Carnegie-library warmth.
